

This Season consider adopting a family...

Christmas is a magical time of the year, where we realize the true blessings in our lives and the potential to share with others.

Last year with the help of our community, AWAIC was able to ensure that over 200 families who receive services were able to have a nice Christmas. It seems like such a small thing to us but for children it conveys so much more. During difficult times, it's nice to be reminded of hope and every day magic that still exists.

We are currently in need of generous donors who would be able to help bring the magic back.

If you are interested in more information on adopting a family for Christmas please contact Heather Bouwens or Soma Kliemann directly.
